PROFESSIONAL SUMMARY

Motivated .NET Developer with 2+ years of hands-on experience in healthcare domain applications using ASP.NET MVC, Kendo UI, and C#. Adept at building dynamic and responsive UIs, integrating SSRS reports, and performing backend tasks using LINQ and MS SQL. Proactive in collaborating with cross-functional teams and improving development workflows.

TECHNICAL SKILL

- **Languages:** C#, SQL, LINQ, JavaScript, jQuery
- **Frameworks:** ASP.NET MVC, REST API
- **Database:** MS SQL Server
- **Reporting Tools:** SSRS, Power BI Paginated Reports
- **Web:** HTML, CSS, Kendo UI (MVC), Bootstrap
- **Tools:** Visual Studio, Git, TFS
- **Others:** Debugging, Performance Tuning (basic), SDLC understanding

WORK EXPERIENCE

Software Developer | Apt Infosoft Private Limited

March 2023 – June 2025

- Developed interactive healthcare modules using **ASP.NET MVC**, **Kendo UI**, and **JavaScript** to enhance user experience.
- Integrated **SSRS** and **Power BI Paginated Reports** for healthcare audit and quality reporting.
- Contributed to UI redesign with a modern, responsive theme across the platform.
- Designed and optimized backend logic using **MS SQL Server**, **C#**, and **LINQ**.
- Managed version control, code merging, and deployments using **TFS** and **Git**.
- Provided production support, resolved bugs, and implemented new feature enhancements.
- Collaborated in **Agile ceremonies**, including sprint planning, stand-ups, and release cycles.

KEY PROJECT

1. ASCWebQI – Healthcare Quality Improvement

Developed and maintained healthcare modules with **ASP.NET MVC**, optimized backend queries, integrated reports using **SSRS** and **Power BI**, and ensured performance and stability.

2. Explore Coders - E-Learning Platform (Self Project) | [Link](#)

Designed and developed a responsive e-learning platform with secure authentication, subscription-based access, and video streaming.

3. Personal Portfolio Website (Self Project) | [Link](#)

Developed a responsive personal portfolio website to showcase projects, technical skills, and contact information, using modern web technologies and best UI/UX practices.

EDUCATION

Bachelor of Engineering (BE) – Electrical & Electronics

June 2022

CMR Institute of Technology (VTU)

AVAILABILITY

Immediate | Open to full-time roles across India or remote
